Customising Your Course

- Courses can also be provided in-house/corporate training – on your own premises using your own facilities – thus saving your members additional travel arrangements and costs. Provision must be made for travel and accommodation arrangements and additional cost.
- Our yearly schedule makes provision for corporate courses. This refers to a situation where a single institution (company) obtains the services of MEGAPLAN IIS to present this training course exclusively to their members – and this can take place at our accommodation or that of the client which must comply with minimum standards.
